Homoeopathy is a medical system based on the belief that **like cures like**. Hence any tool which can assist a **Homoeopath** in **identifying** the **constitution** will be an invaluable asset to have.

- Being able to arrive at rubrics from handwriting.
- Imagine the case receiving process devoid of the prejudices of the Homoeopath as well as the patient.
- The power to find the real story behind the story narrated by the patient
- Imagine the power to unmask the patient without them knowing about it

"Graphology, as a diagnostic tool for illness helps to spot early signs of health challenges like Osteoporosis, High Blood Pressure, Alzheimer's, GI disturbances, Cancer, Schizophrenia, Parkinson's disease and many more such complex diseases."
